Interaction Design

Communication

Empathy
Collaboration
Time Management

Education

Sept 2010 -June 2017

Simon Fraser University
Bachelor of Science
Design Concentration
School of Interactive Arts
and Technology

In this program I have immersed myself in 4 years of [iterative, UI, Game, and User Experience design](#) that reflects real world design constraints and projects.

I am a versatile experience designer with keen observation and empathy in my work. Identifying [information architecture](#), converting requirements into [interaction design artifacts](#), and [creating tangible visual design](#), I illustrate my understanding to peers and together plan out and execute design greatness.

UX/UI Pipeline Intern

July 2018 - Present

Method Studios
